The concept for this game is great, but I find the gameplay awful. I'm sure the publisher/developer has put alot of time into this but I can't get past it. It seems when I get into a fight I cannot control my movements once I begin. Once I start I cannot move around, and so fourth. Therefore I cannot even get passed the first level. The color scheme looks great and I like the variety of

enemies from what i saw. <https://www.youtube.com/watch?v=yrL1dlVVblc>
